

HOW TO GET CORRECT MEASUREMENTS ON SILICONE EDGE GRAPHICS (SEG)

Determine the *Live/Opening Size* of an SEG graphic:

- Take a measurement will need to be taken from the **Outside Edge of Groove to Outside Edge of Groove** of the opposite side of the frame.

Figuring out Extrusion for Finishing:

- There are many types of frame systems for SEG's. In order to help identify the extrusion, measure the **width** and **depth** of the **silicone**.
